

INSTRUCTIONS FOR MAKING THE
YOU ARE MY SUNSHINE
CARD

1. Fold your light blue cardstock in half to create your folded card.
2. Glue the yellow circle to the top and center of the front of the card.
3. On the bottom, use the black marker to copy the words:

You are my SUNSHINE!

**Be sure your child starts on the far left of the bottom of the card. You will also have to tell them to print fairly small so they don't run out of room.*

4. Glue your googly eyes (or use a black crayon to draw eyes) onto the yellow circle. Then draw a smiley face on your sun with a **red crayon**.

5. Use an **orange crayon** to draw lines around the edge of the yellow circle for sun rays.

6. The sun acts as the 'O' for MOM. Use a black marker or crayon to write an M on each side of the sun, to spell the word MOM. ***You can also leave the letters off entirely if you are making the card for grandma, or another loved one.***

7. Open up your sunshine Mother's Day card and write a personal message on the inside. Now your card is ready to give to Mom, grandma or a loved one for Mother's Day.
